### Competitions and Assessment for Schools

Dear Parent/Guardian,

Educational competitions and assessments are an opportunity for students to engage in a challenging task whilst also receiving acknowledgement for their intellectual pursuits. They also provide students with valuable practice at presenting for rigorous examinations. Parents also benefit from receiving additional information regarding their children's intellectual development.

If you are interested in your son/daughter participating in the ICAS English or Mathematics competitions, please complete the form below and forward payment to the school by 13 June. Each competition costs \$8.80

.....

I would like my son/daughter ..... (name) of year .....

to participate in the following assessments.
